INFORMATION DISCLOSURE STATEMENT

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

SIR:

Pursuant to the terms of 37 CFR §§1.56, 1.97 and 1.98, and in compliance with the guidelines for Information Disclosure Statements set forth in M.P.E.P. §609 and in the Commissioner's Notice of April 20, 1992 (published in the Official Gazette of May 19, 1992, 1138 TMOG 39-43), applicant is submitting herewith, on the attached Form

PTO/SB/08A (2 sheets), a listing of twenty-seven (27) documents, including sixteen (16) U.S. patent documents, designated AA-AP, respectively, and eleven (11) foreign patent documents, designated AQ-AZ and AAA, respectively, all containing information for consideration by the Examiner, together with legible copies of documents AQ-AZ and AAA.

Since the filing requirements for this application were completed after June 30, 2003, applicant need not submit, and is not submitting herewith, copies of documents AA-AP. Moreover, since documents AQ-AV submitted herewith are written in the English language, no concise explanation of their relevancy is required, as pointed out in 37 CFR §1.98(a)(3)(i) and in section A(3) of the above-mentioned Commissioner's Notice.

However, since documents AW-AZ and AAA submitted herewith (three Japanese patent documents, a French patent document, and a German patent document, respectively) are *not* written in the English language, each of them is submitted herewith accompanied by an English-language abstract, the latter constituting the required concise explanation of the relevancy of those documents.

Inasmuch as the subject application has not yet received a first Office Action on the merits, the information being presented herewith is believed to be timely filed pursuant to 37 CFR §1.97(b)(3); moreover, no fee is deemed necessary in connection

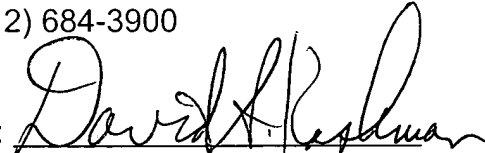

with the filing of this communication.

None of the information presented herewith is believed to be adverse to the patentability of the present invention. Nevertheless, it is requested that this information be made of record and considered in the examination of the above-identified patent application.

Respectfully submitted,
